DNA ANALYSIS WITH CUTTING EDGE TECHNOLOGY

Eastern Biotech & Life Sciences has been consistently serving people in the Middle East, operating and offering free, online support. Strongly devoted to research and development **Eastern Biotech & Life Sciences** guarantees hi-tech DNA testing procedures, employing experienced DNA analysts.

YOUR TEST

Within your DNA kit you have everything you need to obtain a fast, accurate DNA test. DNA is extracted from your samples and a number of regions is analysed. For example, the Easy Test takes 16 regions, or markers, into account. Each specific DNA region could have any one of a high number of different DNA sequence combinations. The true biological father of any child will share DNA types in each region tested. Testing several of these regions gives the test very high accuracy, resulting in two possible scenarios:

1. At least 2 DNA sequence mismatches (proving non-paternity)
2. ALL DNA sequence matches (proving paternity)

PATERNITY TESTING COSTS

You may choose between the DNA paternity tests listed below. We can also analyse the mother's DNA but, at present, we require neither the mother's DNA nor her consent for a peace of mind test.

Costs shown below are for testing the alleged father and one child (and mother if desired).

1. **Premium Test - 99.99% accuracy: \$325 (with or without mother's DNA)**
2. **Super Test - 99.9999% accuracy: \$400 (with or without mother's DNA)**

For Easy, Premium and Super Tests, each additional child/father costs a further **\$175**.

3. **Discreet Testing - add \$175 for each discreet sample sent to us.**

Understandably, you may wish to test discreetly without unnecessarily upsetting a child with regards to the issues of paternity testing, not until perhaps after test results are known.

We can test a toothbrush, a snotty tissue, a cotton bud (used to clean the ear) or a used band-aid. We are able to obtain DNA from toothbrushes in about 90% of cases, and from ear-cotton buds in 99% of cases.

If we fail to obtain DNA from your discreet sample, we will refund **\$40** of the **\$95**, and 100% of the DNA test price if you cannot send us further samples to test. Note: for another discreet sample, a further \$95 is required.

4. **Court Approved Test (ISO Accredited): \$510 (must have mother's/ guardian's approval)**

If you require a DNA test for a court dispute, immigration purposes or to amend a birth certificate, you will require a court-approved test. This test is recognised by the Standards Commission, law courts and government agencies by ISO accreditation. All individuals undertaking the court approved test, please contact us at info@easternbiotech.com, we will dispatch the legal documentation, as well as advising on the nearest medical centre where you can have your DNA extracted by a medical professional.

FAMILY RELATIONSHIP TESTS

We offer a series of additional DNA tests, which include tests between brothers, sisters, grandparents, aunts/uncles and cousins. For further detail, please visit our website.

SAMPLE SUBMISSION FORM

Please enter the same name or label as written on the samples submitted for testing.

Father: _____ Father's ethnic background*: _____
Mother: _____ Mother's ethnic background*: _____
Son(s): _____
Daughter(s): _____

* Ethnic background question is for analysis purposes only. Please state ethnic origin (or country), such as Asian, Latin American, African, English, Cuban, Irish, German, etc.). If you do not know, then please put 'unknown'.

Please tick the appropriate boxes below:

- I have paid for a Premium Test **\$325** (minimum 99.99% accuracy)
 I have paid for a Super Test **\$400** (minimum 99.9999% accuracy)
 I am having _____ extra persons tested (children or possible fathers) **\$175** per extra
 I am sending _____ discreet samples (i.e. Toothbrush, snotty tissue), **\$175** per discreet sample
 I have paid \$ _____ for _____
 I have paid for a print out of a sample of the DNA band images (**\$40** extra)

Result

- Results in 4-5 weeks

Please indicate how you would like to receive your test results (select one or multiple options)

Name: _____ Telephone*: _____
Email: _____ Fax*: _____
Normal mail: _____

Payment Options:

- I will be paying the full total amount of: \$ _____
 Cash Cheque Bank Transfer

Bank Account Details: Eastern Biotech & Life Sciences

Account number : 035447259001

Swift code : BBMEAEAD

Bank Name : HSBC Bank

Branch : Jebel Ali, P.O.Box- 66

Individuals must deliver the cheque/cash directly to **Eastern Biotech & Life Sciences**. Individuals going to the Test Center should pay there at the Cashier.

PROCEDURE FOR DNA CHEEK SWAB COLLECTION

Ensure that you wash your hands and use basic hygiene when collecting DNA samples.

We recommend a cheek swab sample if the person to be tested has fine or grey hair or if there are no visible roots on the hair sample.

1. **Label** the swab pouch and submission form supplied with the date and the name of the person to be tested.
2. Remove the swabs from the pouch (DO NOT touch the end with the bristles).
3. Rub the bristled end on the inside of the cheek. Continue to do this for 20 seconds. Repeat this on the inside of the other cheek using the same or second swab depending on your swab allocation.

Note: With young children, please be careful not to poke the end of the swab into the cheek (You will see the end of the swab has a blunt metal point).

4. Immediately place both swabs back into their sterile pouch and seal closed.

PROCEDURE FOR DNA HAIR SAMPLE COLLECTION

1. Label the sterile swab pouch and submission form supplied with the date and the name of the person to be tested.
2. Pull **AT LEAST** six hairs (roots visible) from your head, eyebrow or underarm, etc.

This can be performed with tweezers or your thumb and forefinger, grasping the hair slightly above where the hair joins the skin. The hairs should be pulled out with one quick, swift motion. **NEVER touch the end of the hair** where it was attached to the skin (the hair root).

The hair root (small clump of skin cells) must be visibly attached to the end of the hair after it is pulled from the body - ensure the hair did not break, but was pulled out completely. It is possible to see the root by looking closely at the end of the hair you have pulled out. *If the person has fine, grey, or no hair, or the hair root is not visible or is hard to see, then we recommend that a buccal (cheek) swab be taken from that person.*

3. Place the hairs immediately into the sterile swab pouch labelled with the identity of the person from whom the hair was taken.

Note: Since DNA is exactly the same in every cell in your body, you do not have to take the same type of sample from each person being tested.

COLLECTING THE DNA SAMPLES

We are able to analyse a variety of different sample types. The preferred method of sample extraction is the mouth swab - this is included with your kit and the procedure is simple and pain free. One swab pouch is for one person only and, following sample collection, each pouch should be named and returned to our laboratory. We can also test plucked hair; the enclosed instructions detail the method by which hair may be obtained for DNA extraction.

PLEASE BE AWARE THAT DNA EXTRACTED FROM MOUTH & HAIR SAMPLES GIVES EXACTLY THE SAME ACCURACY AS THAT FROM BLOOD SAMPLES.

In many cases a parent taking the test may wish to act more discreetly, in order to protect the children or others from unnecessary stress and anxiety. If taking a mouth swab or hair sample is too difficult, we may be able to work with other sample types. (i.e. nail clippings, a toothbrush, a hairbrush, a band-aid, etc.)

Please return your DNA samples by *Courier* (to ensure they arrive promptly) to the following address:

Eastern Biotech & Life Sciences
Dubai Media City
P. O. Box 212671
Dubai, UAE

PAPERWORK

Please complete your sample submission form. This tells us exactly what type of test you require, the individuals' names and their possible relationship (i.e., father: Mr Jones or child: Peter Jones).

You can stipulate how you wish to receive your DNA results, i.e. by email, post, telephone, or fax. If you wish to have results posted to two different locations, please write the name and addresses on the form of each person to receive written results. You can also select the testing time: the standard time is 10-15 days from receipt of your DNA samples, but you may wish to opt for the express test to receive your results within a shorter timeframe.

Once you have completed this form, ensuring that you have signed the terms and conditions on the reverse, please return the samples to **Eastern Biotech & Life Sciences** for analysis.

COMPANY CONFIDENTIALITY

Eastern Biotech & Life Sciences has a strict confidentiality policy. Under no circumstances is your information passed to any third party without your permission.

TERMS AND CONDITIONS

1. This test & report is for the peace of mind only and not be used in any legal purpose.
2. DNA Solutions Pty Ltd warrant that the result of the analysis of biological samples provided to us by you (the customer) is correct but subject to a margin of error of 0.001%. No further representation, warranty, or undertaking is given or made in relation to the result of analysis.
3. In the very unlikely event that the result of analysis is found to be in error, we shall refund to you any amount you have paid us in respect of the analysis. Alternatively, we shall perform further analysis at no charge to you, the customer.
4. Subject to paragraph 3 above, we shall not be liable for any loss or damage suffered by you or any other person as a result of the provision to you of a result of analysis.
5. We make no representation, express or implied, that the result of analysis is fit for any particular purpose because sample collection and name of persons provided by yourself.
6. You agree to pay a \$ 25 fee for any returned cheque.
7. DNA Solutions gives test results faster than its advertised time in over 99% of cases; no liability is accepted for late results. Persons, who have paid an additional fee for express results, shall receive 20% of that express fee refunded for every day past the promised date of receipt of results, or until the entire express fee is refunded in full.

I hereby agree to the terms and conditions set out above and confirm the information I have given is correct.
